WHAT IS MORABARABA?

Morabaraba is South Africa's classic board game of cattle and cunning — two herds of twelve cows, one board, and a battle of wits. This app brings it to your phone, with real **airtime prizes** on top.

THE LOOP

- 1 **Play** — matches against the Ancestors, a friend, or players across Mzansi
- 2 **Earn gold coins** — every win and draw pays, and so does caring for your herd
- 3 **Collect entries** — coins automatically enter you into the daily, weekly, and monthly prize draws
- 4 **Stand to win** — airtime prizes, drawn fairly. Come back tomorrow and grow your chances

 The banner at the top of the home screen always shows the Grand Kraal Prize, your entries, and the time left — tap it any time to open the Prize Centre.

03 HOW TO PLAY — PLACING

THE RULES

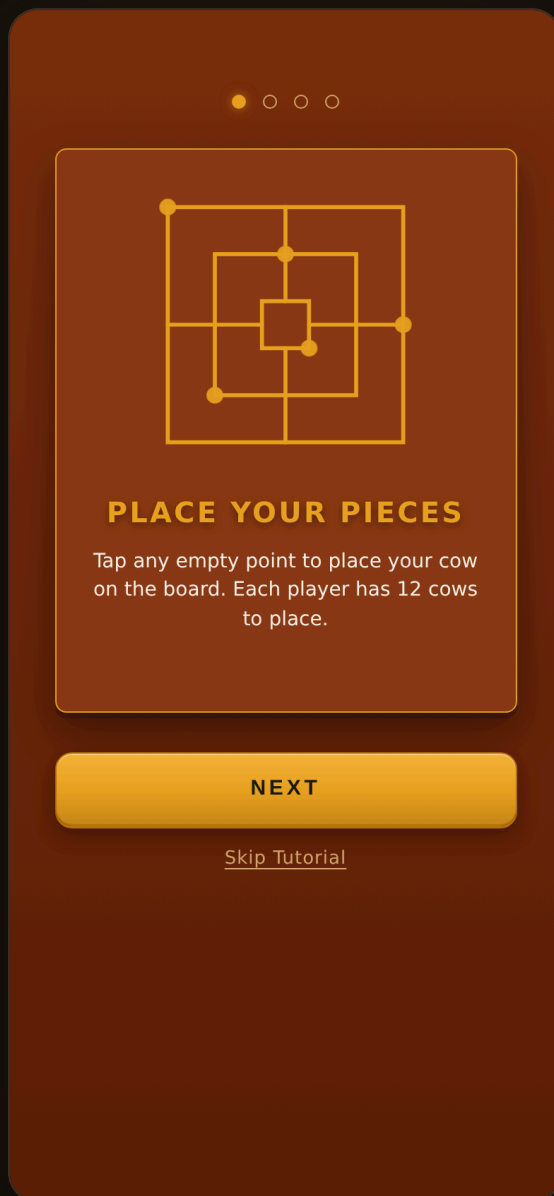

THE BOARD

24 points on three squares, joined by lines. You and your opponent each have **12 cows**. Your herd is shown at the top — the highlighted side is whose turn it is.

PHASE 1 — PLACING

- Take turns placing one cow at a time on any empty point
- You're aiming to line up **three of your cows on a straight line** — that's a **mill**
- Make a mill and you **capture** one of your opponent's cows — tap the one you want (glowing rings show your choices)
- Captured cows never come back

💡 Don't chase your own mill so hard that you forget to block your opponent's — one placed cow can do both jobs at once.

PHASE 2 — MOVING

- Once all cows are placed, tap a cow, then tap a **connected empty point** to slide it along a line (gold dots show your legal moves)
- Mills still capture — slide out of a mill and back in to strike again

PHASE 3 — FLYING

- Down to your **last 3 cows**? They can **fly** — move to *any* empty point on the board. A fighting chance, right to the end

WINNING

- Win by shrinking your opponent to **2 cows**, or trapping them so they **can't move**
- No captures for a long stretch ends in an honourable draw

🎓 The in-app **Tutorial** (from the home screen) walks all of this through step by step, with pictures.

06

YOUR KRAAL, YOUR HERD

Every player keeps a herd, led by a **guardian** you name yourself — it never leaves you. Visit once a day for the morning chores: **feed** 🌾, **water** 💧, and a **health check** ❤️. Thirty seconds, and it pays coins.

CARE STREAKS GROW THE KRAAL

DAYS OF CARE	REWARD
3 days	A new calf joins the herd
7 days	Your kraal expands
14 days	A rare Nguni arrives
30 days	A champion breeding bull

Your guardian earns adornments along the way — reed collar, ceremonial beads, painted horns, and the royal blanket.

💚 Miss a day and nothing is lost — the herd just gets hungry. Come back and it thrives again (though your streak restarts).
