

ADMIN GUIDE

Running the Kraal — players, prizes, draws & payouts

WORLDPLAY · MORABARABA

August 2026 · Version 1.0

morabaraba-admin.vercel.app

01 THE ADMIN SITE AT A GLANCE

WHAT IT IS

The admin site is the **control room** for Morabaraba. It runs separately from the game, on its own private URL, and manages everything the game itself can't: player support, prize draws, airtime payouts, and the live game economy.

THE SIX SECTIONS

SECTION	WHAT IT'S FOR
Dashboard	Daily health: players, activity, coins issued
Players	Look up any player; correct coin balances
Draws	Watch entry pools; run the prize draws
Payouts	Track every prize from pending to paid
Game Config	Change prizes & scoring — no app update needed
Audit Log	A permanent record of every admin action

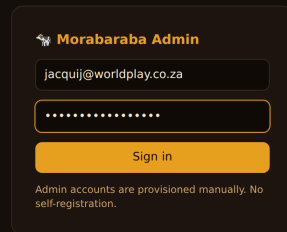

ACCESS & SECURITY

- Sign-in with **email + password**. Accounts are provisioned manually — there is **no self-registration**.
- Access is enforced **in the database itself** (row-level security), not just in the browser. A non-admin login sees nothing.
- Money-touching actions (coin adjustments, draws, payouts) run through **guarded server procedures** and every one is written to the Audit Log.
- Two admin accounts exist today: Gideon (Storyboards) and Jacqui (Worldplay).

HOW IT CONNECTS

The game and the admin site share one secure database (Supabase). When you change a prize value here, **players see it in the game within a minute** — no app-store release, no developer involved.

💡 The admin site works on any modern browser, desktop or tablet. Keep the URL private — the login page is the only gate visible to outsiders.

The image shows a login form for 'Morabaraba Admin'. It features a title bar with a key icon and the text 'Morabaraba Admin'. Below this are two input fields: one for the email address 'jacquij@worldplay.co.za' and another for a password represented by dots. A blue 'Sign in' button is positioned below the password field. At the bottom, a small note states: 'Admin accounts are provisioned manually. No self-registration.'

STEPS

- Go to **morabaraba-admin.vercel.app**
- Enter your admin email and password
- You land on the Dashboard

GOOD TO KNOW

- If you see *"Not an admin account"*, the login worked but the account hasn't been granted admin rights — contact Gideon.
- Sessions stay signed in on your device; use **Sign out** (bottom-left) on shared machines.

 Passwords are set when the account is created. A self-service password reset is on the roadmap — until then, resets are done by the developer.

Monthly leaderboard — top 5

#	PLAYER	POINTS
1	@ThaboM	214
2	@Lerato_K	187
3	@Ayanda_M	165
4	@Sipho88	149
5	@NalediZulu	121

Server data reflects signed-in players only. Offline/AI-only players sync once phone sign-in ships.

WHAT YOU'RE SEEING

- **Registered players** — total accounts on the server
- **Active today** — players who earned coins today
- **Coins issued** — today and month-to-date (the fuel of the prize economy)
- **Monthly top 5** — the current leaderboard podium race

HOW TO USE IT

A 30-second morning glance answers: *is the game healthy, are people playing, is the economy moving?* Sudden spikes in coins issued are worth a look in the Audit Log and Players pages.

 Numbers reflect signed-in players. Once phone sign-in launches, offline players will appear here too.

FINDING A PLAYER

Search by username, or browse the list (sorted by lifetime points). Each row shows coins, win/loss record, and permanent achievements — lifetime points, best month, highest leaderboard rank.

WHEN TO USE IT

- A player reports missing coins or a wrong balance
- Verifying a draw winner's activity looks legitimate
- Checking a player's history before a goodwill credit

👁 Click **View** on any row to open the player's full ledger and the coin-adjustment tool — next page.

USERNAME	TIER	COINS	W	L	LIFETIME PTS	BEST MONTH	BEST RANK
STEVE	10	412	84	31	1,264	100	#3

CORRECTING A BALANCE

- 1 Open the player and enter the amount — positive to credit, negative to deduct
- 2 Write the reason. **It's required** — the system refuses adjustments without one
- 3 Apply. The player's balance updates instantly, in-game too

BUILT-IN SAFEGUARDS

- Every adjustment lands in the player's **ledger** (shown below the form) and in the **Audit Log** with your name on it
- Adjustments **never create draw entries** — only genuine play does
- Balances can't go below zero

8/1/2026, 7:15:00 AM	grand	2026-07	@Lerato_K	R1000	3,184	96	drawn

THE POOLS

The top cards show **live entries** in the three open pools. Players earn 1 entry into each pool per 10 coins earned, capped at 20 entries a day.

RUNNING A DRAW

- 1

Pools close at **23:59** — daily every night, weekly Sunday, monthly at month-end
- 2

The next morning, the closed period is pre-filled. Click **Run draw** and confirm
- 3

The winner is announced on screen and a payout is queued automatically

WHY IT'S TAMPER-PROOF

- Entries are **calculated from the coin ledger** at draw time — there are no counters anyone can edit
- Winner selection is random, weighted by entries, from a **recorded seed** — any draw can be independently re-verified
- A period can **never be drawn twice**, and can't be drawn early

CREATED	WINNER	DRAW	AMOUNT	STATUS	NOTE
8/20/2026	@NalediZulu	daily 2026-08-19	R50 (airtime)	pending	
8/19/2026	@Sipho88	daily 2026-08-18	R50 (airtime)	paid	Airtime sent via portal, ref WP-88213
8/17/2026	@Ayanda_M	weekly 2026-W33	R300 (airtime)	paid	Airtime sent, ref WP-88104
8/1/2026	@Lerato_K	grand 2026-07	R1000 (airtime)	paid	Grand prize — paid + winner congratulated by SMS

Manual fulfilment mode: send the airtime via your channel, then Mark paid with a reference. Automatic Worldplay payouts arrive in Phase C.

THE QUEUE

Every draw winner appears here as a **pending** payout. Filter by status; the full history stays forever.

CURRENT WORKFLOW (MANUAL)

- 1

Send the airtime through your usual channel
- 2

Click **Mark paid** and record the reference number
- 3

If something goes wrong, mark it **Failed** with the reason — it can be re-queued later

✂ Phase C connects the Worldplay airtime API: payouts will fire automatically after each draw, and this page becomes the monitoring view. The workflow and history stay identical.

LIVE TUNING — NO APP RELEASE

These values drive the game directly. Change one, save, and players see it **within a minute**:

- **Prize values** — R50 / R300 / R1,000 draw amounts
- **Scoring** — coins per win / draw / loss (currently 3 / 1 / 0)
- **Entries** — coins per entry and the daily cap
- **Podium** — monthly top-3 airtime rewards

GUARD RAILS

- Every change is **audited automatically** — old and new values, who, when
- Changes apply to **future** play; completed draws and paid prizes are never affected

⚠ Prize values appear in marketing and Ts & Cs — align changes with the published competition terms before saving.

EVERYTHING, FOREVER

Every privileged action is recorded automatically and permanently:

- draw_executed** — winner, prize, pool size, and the verification seed
- payout_paid** — who marked it, with the payment reference
- coin_adjustment** — amount, reason, resulting balance
- config_update** — old and new values side by side

WHY IT MATTERS

Promotional competitions must be able to show **how every winner was selected and every prize was paid**. This page is that evidence — entries can't be edited or deleted, even by admins.

10 THE OPERATING ROUTINE

EVERY MORNING (~5 MIN)

1 · Glance at the Dashboard

Players active, coins issued — does it look normal?

2 · Run yesterday's Daily draw

Draws → Run draw (pre-filled) → confirm → winner announced.

3 · Pay the winner

Send airtime, then Payouts → Mark paid with the reference. Aim to notify winners by 10:00.

WEEKLY (MONDAY) & MONTHLY (1ST)

Same routine, bigger prizes

Run the Weekly draw each Monday and the Grand draw on the 1st, then pay R300 / R1,000. On the 1st, also settle the leaderboard podium (R300 / R200 / R50 airtime to the top 3).

COMING NEXT

MILESTONE	WHAT CHANGES
Phone sign-in	Players register with their mobile number — real entry pools, verified winners
Worldplay integration	Airtime payouts and winner SMS fire automatically after each draw
Draw scheduling	Draws run themselves at 23:59; mornings become review-only
Admin accounts page	Create and revoke admin users from this site, plus password reset

📞 Support: Gideon Schachat · gideon@storyboards.io
Technical changes, new admin accounts, and password resets go through the development team.
